Is it 9732

...or 9372

It's funny how easy numbers can get transposed in one's mind. Even telephone numbers that you frequently call sometimes get mixed up. When they do, and you make a guess as to what the right number is, you all too often find you've called the wrong person.

That's annoying to the person you've called and to you, too, because you've wasted time. But such wrong numbers can be avoided, easily. Just make this a rule—when in doubt, consult the telephone directory. You'll save time, if you do.
